FUZETEC TECHNOLOGY CO., LTD. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REPORT DECEMBER 31, 2023 AND 2022

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Fuzetec Technology Co., Ltd.

PWCR 23000366

Opinion

We have audited the accompanying consolidated balance sheets of Fuzetec Technology Co., Ltd. and subsidiaries (the "Group") as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2023 consolidated financial statements are stated as follows:

Valuation of inventories

Description

Refer to Note 4(13) for accounting policy on inventories, Note 5(2) for the uncertainty of accounting estimates and assumptions related to inventory valuation, and Note 6(5) for details of allowance for inventory valuation losses. As of December 31, 2023, the Group's inventory cost and allowance for valuation loss were NT\$89,524 thousand and NT\$33,929 thousand, respectively.

The Group is primarily engaged in the trading of electronic components used in vehicles and smart applications, etc. Considering the economic order quantity factors and numerous inventory items, there is a higher risk of inventory losing value or becoming obsolete. The Group's inventory is stated at the lower of cost and net realisable value, and the net realisable value of inventory over a certain age and individually identified as obsolete is evaluated based on the historical data on inventory clearance and discounts. For inventory over normal age and those individually identified as obsolete or damaged inventory, the Group recognises the allowance for inventory valuation losses.

Since the Group has numerous inventory items, and the determination of net realisable value for obsolete inventories is subject to management's judgment on whether the inventories have future market value, there is a high degree of estimation uncertainty. Given that the Group's inventories and the allowance for inventory valuation losses are material to the consolidated financial statements, we considered the valuation of inventories a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the allowance for valuation losses of inventories that are over a certain age and individually identified as obsolete:

- 1. Ensured consistent application of accounting policies in relation to allowance for inventory valuation losses and assessed the reasonableness of these policies.
- 2. Assessed the reasonableness of obsolete or damaged inventory identified by the management against related supporting documents. Reviewed the annual physical inventory count plan and participated in such count in order to assess the classification of obsolete inventory and effectiveness of internal control over obsolete inventory by management.
- 3. Verified the appropriateness of the system logic in calculating the ageing of inventories, and confirmed whether the information in the reports is consistent with the relevant policies.
- 4. Discussed with management the estimated net realisable value of separately identified obsolete and damaged inventories, obtained and corroborated against supporting documents and recalculated the allowance provision.
- 5. Tested the market value on which the net realisable value is estimated, and sampled and checked the calculation of net realisable value.

Timing of sales revenue recognition

Description

Refer to Note 4(26) for accounting policy on revenue recognition.

The Group is primarily engaged in the manufacture and trading of electronic components used in vehicles and smart applications, etc. Given that the Group has numerous customers, sales areas and transaction terms, we considered the timing of sales revenue recognition a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in order to assess the revenue recognition by management:

- 1. Obtained an understanding of sales terms and tested internal control relevant to sales revenue recognition.
- 2. Performed a cut-off test on sales revenue transactions that occurred within a certain period before and after the year end date, and ascertained whether the sales revenues were recorded in the appropriate reporting period.
- 3. Tested subsequent collections of accounts receivable that occurred within a certain period after the balance sheet date.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Fuzetec Technology Co., Ltd. as at and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

FUZETEC TECHNOLOGY CO., LTD. AND SUBSIDIARIESNOTES TO THE CONSOLIDATED FINANCIAL STATEMENTSFOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. History and Organisation

Fuzetec Technology Co., Ltd. (the "Company") was incorporated in December 1999. The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in the manufacture and trading of electronic components. The shares of the Company have been listed on the Taipei Exchange since September 23, 2019.

- <u>The Date of Authorisation for Issuance of the Financial Statements and Procedures for Authorisation</u> These consolidated financial statements were authorised for issuance by the Board of Directors on February 27, 2024.
- 3. Application of New Standards, Amendments and Interpretations

 Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS[®]") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and became effective from 2023 are as follows:

| | Effective date by |
|---|-------------------|
| | International |
| | Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IAS 1, 'Disclosure of accounting policies' | January 1, 2023 |
| Amendments to IAS 8, 'Definition of accounting estimates' | January 1, 2023 |
| Amendments to IAS 12, 'Deferred tax related to assets and liabilities | January 1, 2023 |
| arising from a single transaction' | |
| Amendments to IAS 12, 'International tax reform - pillar two model | May 23, 2023 |
| rules' | |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of the adoption of new issuances of or amendments to IFRS Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:.

| | Effective date by |
|--|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback' | January 1, 2024 |
| Amendments to IAS 1, 'Classification of liabilities as current or non- | January 1, 2024 |
| current' | |
| Amendments to IAS 1, 'Non-current liabilities with covenants' | January 1, 2024 |
| Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements' | January 1, 2024 |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

| | Effective date by |
|---|---------------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets | To be determined by |

| Amendments to IAS 21, 'Lack of exchangeability' | January 1, 2025 |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. Summary of Material Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC[®] Interpretations, and SIC[®] Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) <u>Basis of preparation</u>

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income.
 - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- (3) Basis of consolidation
 - A. Basis for preparation of consolidated financial statements:
 - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
 - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.
 - B. Subsidiaries included in the consolidated financial statements:

| Name of | Name of | Main business | Owners | ship (%) | |
|----------------------------------|------------------------------------|--|-------------------|-------------------|-------------|
| investor | subsidiary | activities | December 31, 2023 | December 31, 2022 | Description |
| The Company | Fuzetec Technology Co., Ltd. | General investment | 100 | 100 | - |
| Fuzetec Technology Co Ltd. | Suzhou Fuding Trading Co., Ltd. | Trading of electronic components | 100 | 100 | - |

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

- B. Translation of foreign operations
 - (a) The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognised in other comprehensive income.
 - (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operations.
- (5) Classification of current and non-current items
 - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
 - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- (8) Financial assets at fair value through other comprehensive income
 - A. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
 - B. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

- (9) Financial assets at amortised cost
 - A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
 - B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
 - C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.

D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (11) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.
- (13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sales.

- (14) Property, plant and equipment
 - A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.

- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

| Machinery and equipment | 3 ~ 11 years |
|-------------------------|------------------|
| Leasehold improvements | $1 \sim 6$ years |
| Office equipment | 3 ~ 6 years |
| Other equipment | 4 ~ 6 years |

- (15) Leasing arrangements (lessee) right-of-use assets / lease liabilities
 - A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
 - B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
 - C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(16) Intangible assets

- A. Patents are stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 10 years.
- B. Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 6 years.
- (17) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (20) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(21) <u>Provisions</u>

Provisions for decommissioning are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognised as interest expense.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis.

- (b) Defined benefit plans
 - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds of a currency and term consistent with the currency and term of the employment benefit obligations.
 - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- C. Employees' compensation and directors' and supervisors' remuneration
 - Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional

tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- (24) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(25) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities.

- (26) <u>Revenue recognition</u>
 - A. The Group manufactures and sells electronic components used in vehicles and smart applications, etc. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products.
 - B. Revenue from sales of electronic components is recognised based on the price specified in the contract, net of business tax, returns, rebates and discounts.
 - C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(27) Government grants

Government grants are recognised at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises expenses for the related costs for which the grants are intended to compensate.

(28) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. Critical Accounting Judgements, Estimates and Key Sources of Assumption Uncertainty

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year ; and the related information is addressed below:

- (1) <u>Critical judgements in applying the Group's accounting policies</u> None.
- (2) Critical accounting estimates and assumptions
 - Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2023, the carrying amount of inventories was \$55,595.

6. Details of Significant Accounts

(1) Cash and cash equivalents

| | December 31, 2023 | | December 31, 2022 |
|--|-----------------------|----|-------------------|
| Cash on hand and revolving funds | \$ 590 | \$ | 477 |
| Checking accounts and demand deposits | 92,634 | | 96,663 |
| Time deposits | 12,282 | | 4,100 |

| Transferred to restricted assets (shown as 'other current assets') | - | (| 4,100) |
| (| \$ 105,506 | \$ | 97,140 |

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. As of December 31, 2022, the Group has time deposits pledged to others as collateral for borrowing facilities, and thus it was transferred to restricted assets (shown as 'other current assets') based on its nature. Refer to Note 8 for details.
- (2) Financial assets at fair value through profit or loss current

| Items | Decer | mber 31, 2023 | December 31, 2022 | | | | |
|--|-------|---------------|-------------------|-------|--|--|--|

| Valuation adjustment | | 321 | | 322 | | | |
| | \$ | 2,111 | \$ | 2,112 | | | |

- A. For the years ended December 31, 2023 and 2022, the net gain on valuation recognised in profit or loss in relation to financial assets at fair value through profit or loss are (\$1) and \$68, respectively.
- B. The Group has no financial assets at fair value through profit or loss pledged to others as collateral.
- C. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 12(2).
- (3) Financial assets at amortised cost

| Items | Decen | nber 31, 2023 | December 31, 2022 | | | |
|--|-------|---------------|-------------------|---------|--|--|
| Current items: | | | | | | |
| Time deposits with maturity over three | | | | | | |
| months | \$ | 483,604 | \$ | 726,550 | | |

A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

| | Year ended December 31 | | | | | | | | |
|-----------------|----------------------------|-------|--|--|--|--|--|--|--|
| | 2023 | 2022 | | | | | | | |
| Interest income | \$ 7,516 \$ | 8,363 | | | | | | | |

B. As of December 31, 2023 and 2022, the Group had no financial assets at amortised cost pledged to others as collateral.

C. Information relating to credit risk of financial assets at amortised cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(4) Notes and accounts receivable

| | | December 31, 2023 | | December 31, 2022 |
|--|----|-------------------|----|-------------------|
| Notes receivable | \$ | 30,227 | \$ | 31,004 |

(13) Pensions

- A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method; to the employees expected to be qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that Fund and therefore, the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (e) The principal actuarial assumptions used were as follows:

| | Year ended December 31 | | | |
|-------------------------|------------------------|-------|--|--|
| | 2023 | 2022 | | |
| Discount rate | 1.15% | 1.25% | | |
| Future salary increases | 3.00% | 3.00% | | |

Future mortality rate was estimated based on the 5th Taiwan Standard Ordinary Experience Mortality Table.

Sensitivity analysis of the effect on present value of defined benefit obligation due from the changes of main actuarial assumptions was as follows:

| | Discount rate | | | | Future salary increases | | | |
|--------------------|---------------|--------------------------|----|----------------|-------------------------|----------------|-----|------|
| | Increase 0 | ase 0.25% Decrease 0.25% | | Increase 0.25% | | Decrease 0.25% | | |

| value of defined | | | | | | | | |
| benefit obligation | (<u>\$</u> | 391) | \$ | 408 | \$ | 400 | (\$ | 386) |

The sensitivity analysis above is based on one assumption which changed whike the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method utilised in sensitivity analysis is the same as the method utilised in calculating net pension liability on the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis were consistent with previous period.

- (f) Expected contributions to the defined benefit pension plan of the Company for the year ended December 31, 2024 amount to \$1,365.
- (g) As of December 31, 2023, the weighted average duration of that retirement plan is 6 years. The analysis of timing of the future pension payment was as follows:

| Within 1 year | \$ 9,458 |
|---------------|--------------|
| 1 to 2 years | 569 |
| 2 to 4 years | 1,319 |
| Over 4 years | 12,307 |
| | \$ 23,653 |

- B. Since 2015, the Company has made monthly provisions for the pension of the appointed managers. For the years ended December 31, 2023 and 2022, the recognised pension expenses amounted to \$220 and \$220, respectively. As of December 31, 2023 and 2022, the net defined benefit liabilities amounted to \$2,314 and \$2,094, respectively.
- C. Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The pension costs under the defined contribution pension plans of the Company for the years ended December 31, 2023 and 2022 were \$3,698 and \$3,884, respectively.
- D. The Company's mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended December 31, 2023 and 2022 was 16% for both years. Other than the monthly contributions, the Group has no further obligations. The pension costs under the above pension plan of the Group for the years ended December 31, 2023 and 2022 were \$756 and \$730, respectively.

Decommissioning liabilities

According to the policy published, applicable agreement or the law/regulation requirement, the Group bears dismantling, removing the asset and restoring the site obligations for certain property, plant and equipment in the future. A provision is recognised for the present value of costs to be incurred for dismantling, removing the asset and restoring the site. It is expected that the provision will start to be used in next 2 years.

(15) Share capital

As of December 31, 2023, the Company's authorized capital was \$500,000 consisting of 50,000 thousand shares, and the paid-in capital was \$373,996 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(16) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. However, capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(17) <u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses, then 10% of the remaining amount shall be set aside as legal reserve until the legal reserve equals the total capital stock balance, and appropriate or reverse for special reserve as required by the operating needs of the Company or regulations when necessary. The remainder, if any, to be retained or to be appropriated shall be proposed by the Board of Directors and resolved by the stockholders at the stockholders' meeting.
- B. Dividends are distributed in the form of stocks or cash, depending on the Company's current share capital, financial structure, operating conditions and earnings, through the appropriation of earnings as proposed by the Board of Directors and approved by the shareholders in order to achieve a balanced and stable dividend policy. The allocation of the distributable earnings was no less than 70% for dividend distribution to shareholders each year, of which at least 40 % of the total dividends to be paid shall be in the form of cash dividends. The Board of Directors may, upon resolution adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors, distribute dividends and bonus, legal reserve or capital surplus, in whole or in part, in the form of cash, which shall also be reported at the shareholders' meeting. The above distribution is not subject to approval by the shareholders.

- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- E. The appropriations and distributions of 2022 and 2021 earnings had been approved by the shareholders during their meeting on May 23, 2023 and May 24, 2022, respectively. Details are summarised below:

| | | Year ended December 31 | | | | | | | |

12. Others

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

- B. Financial risk management policies
 - (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
 - (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

- C. Significant financial risks and degrees of financial risks
 - (a) Market risk

Exchange rate risk

i. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; subsidiaries' functional currency: RMB or USD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

| | | December 31, 2023 | | | | | | | |

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise shares and open-end funds issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, pre-tax profit for the years ended December 31, 2023 and 2022 would have both increased/decreased by \$18, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have both increased/decreased by \$210, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.
- Cash flow and fair value interest rate risk
- i. The Group's main interest rate risk arises from long-term borrowings (including current portion), which expose the Group to cash flow interest rate risk and is partially offset by cash at banks held at variable rates.
- ii. As of December 31, 2023 and 2022, if the borrowing interest rate had increased/decreased by 1% with all other variables held constant, pre-tax profit for the years ended December 31, 2023 and 2022 would have decreased/increased by \$1,544 and \$2,260, respectively. The main factor is that borrowing interest rate results in an increase/a decrease in interest expense.
- (b) Credit risk
 - i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost.
 - ii. The Group manages its credit risk taking into consideration the entire group's concern. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. The Group adopts following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
- v. The Group classifies customer's accounts receivable in accordance with customer types. The Group applies the modified approach using a provision matrix to estimate expected credit loss.
- vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- vii. The Group used the forecast ability to adjust historical and timely information to assess the default possibility of notes receivable and accounts receivable (including related parties). As of December 31, 2023 and 2022, the provision matrix is as follows:

December 31, 2023

| | | | 1 | Up to 30 | | 31~90 days | Over | |

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, time deposits, and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.
- iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the

contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

| December 31, 2023 | Within | | Between | | E | Between | Over |
|--------------------------------------|--------|----------|---------|---------------|---------|------------|---------------|
| Non-derivative financial liabilities | 0 | one year | | 1 and 2 years | | nd 5 years | 5 years |
| Long-term borrowings | \$ | 6,263 | \$ | 19,694 | \$ | 136,984 | \$ - |
| Lease liability | 11,470 | | 12,300 | | 500 | | - |
| December 31, 2022 | Within | | Between | | Between | | Over |
| Non-derivative financial liabilities | 0 | one year | | 1 and 2 years | | nd 5 years | 5 years |
| Long-term borrowings | \$ | 16,792 | \$ | 21,809 | \$ | 54,370 | \$ 146,498 |
| Lease liability | | 11,442 | | 12,168 | | 9,800 | - |

Except for the above, all of the Group's non-derivative financial liabilities mature within 1 year.

- iv. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.
- (3) Fair value information
 - A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in beneficiary certificates is included in Level 1.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, notes receivable, accounts receivable (including related parties), other receivables, notes payable, accounts payable, other payables and long-term borrowings (including current portion) are approximate to their fair values.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2023 and 2022 are as follows:

- (a) As of December 31, 2023 and 2022, financial assets at fair value through profit or loss which were included in Level 1 amounted to \$2,111 and \$2,112, respectively.
- (b) As of December 31, 2023 and 2022, financial assets at fair value through other comprehensive income which were included in Level 3 amounted to \$21,000 and \$21,000, respectively.
- D. The methods and assumptions the Group used to measure fair value are as follows:
 - i. The methods and assumptions that the Group used to measure fair value, for open-end fund, the Group used net value as their fair values (that is, Level 1).
 - ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance.
 - iii. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- E. For the years ended December 31, 2023 and 2022, there was no transfer among levels.
- F. For the years ended December 31, 2023 and 2022, there was no transfer into or out from Level 3.
- G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

| | Fair value at | Valuation | Significant | Relationship of |
|---------------------|---------------------------------|---|-----------------------------------|--------------------------------------|

- 14. Segment Information
 - (1) General information

The Group is mainly engaged in the manufacture and sales of electronic components. The Board of Directors who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

(2) Measurement of segment information

The Group's segment profit (loss) is measured with the operating profit (loss) after tax, which is used as a basis for the Group in assessing the performance of the operating segments. The accounting policies and estimates of the operating segments are in agreement with the significant accounting policies summarised in Notes 4 and 5.

(3) Information about segment profit or loss, assets and liabilities

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

| | Year ended December 31 | | | | | | |
|---------------------------------|------------------------|---------|----|---------|--|--|--|
| | | 2023 | | 2022 | | | |
| Total segment revenue | \$ | 421,680 | \$ | 484,325 | | | |
| Segment income (before tax) | \$ | 80,450 | \$ | 190,635 | | | |
| Depreciation and amortisation | \$ | 24,017 | \$ | 24,285 | | | |
| Capital expenditures- | | | | | | | |
| purchase of plant and equipment | \$ | 111,267 | \$ | 13,214 | | | |

(4) Reconciliation for segment revenue and income (loss)

The revenue and income (loss) from external customers reported to the chief operating decisionmaker is measured in a manner consistent with that in the statement of comprehensive income.

(5) Information on products

The Group's revenue is mainly from sales of electronic component products.

(6) Geographical information
